

Continuous Internal Evaluation System

The college has a stringent and systemic process for the evaluation of students. The college considers students as valuable stakeholders. The overall internal evaluation is carried out by CIE committee having one chairperson and four committee members. The evaluation of students is carried out on their overall performance which includes the internal evaluation in the form of internal examinations and university level evaluation by conducting the end semester exam. The complete evaluation process is printed in the syllabus. The information regarding evaluation is also given to parents in parent meeting.

The evaluation includes midterm tests, presentations, MCQ exams, case studies, Quizzes and assignments as per part of internal evaluation and end semester university examination. The pattern is much useful for students which improves their involvement in the learning process.

The results of exams are always declared on notice board within 3 to 5 days from date of exam. The advantages of this evaluation system upgrade the students' abilities, progress and development. The learner thus also benefits by focusing on a small part of entire syllabus designed for an academic year.
